The Premium is paid in Cash annually, or may, if desired, be paid semi-annually, or quarterly, by adding Interest to the deferred payments. The CASH principle adopted by this Company, secures to the parties for whose protection Insurance may be effected, the WHOLE of the benefits, without subjecting them to the heavy drawback of accumulated premium notes.
Persons may effect insurance upon their lives, or upon the lives of others. Married women can insure the lives of their husbands, for THEIR OWN BENEFIT and for the protection of their children.
Pamphlets explanatory of the principles of Life Insurance, and illustrative of its advantages, may be had, with form of application, and rates of premium, at the office of the Company, No 35 Wall street, or from any of its Agents.

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:
"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Benthan, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated
I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 10, 1849 Philadelphia."
I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as *mine*. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No 12 East water-st
The attention of the public is called to this article as being superior to Pearlash Salæratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co.'s
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

(Late Butterfield, & Averell's.)
WOULD call the attention of the Public, (and his old Friends and Customers in particular,) to his large and extensive stock of
Wines, Liquors & Cigars,
Purchased by himself in the City of New York, within the last month, FOR CASH, at prices from 25 to 33 per cent less than formerly paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands; on the contrary, I saw all my goods sealed for shipping, and turned out of the CUSTOM HOUSE; therefore, I can say, with confidence, that my Liquors are PURE.
I have marked my Goods very low, and have therefor adopted the
ONE PRICE SYSTEM,
and no deviation from the price first asked; giving those who are not judges of the article, an equal chance with those that are. Every cask will be marked with the price. My arrangements are now completed for the importation of my Fall Stock, when I shall be able to fill orders in New York on still more favorable terms than formerly.
Having been three years in business in this city, I flatter myself that my selections will meet the wants of this market. My assortment of CHOICE SEGARS are complete and my stock of LIQUORS comprises over 1000 original Casks of the most approved brands of

WEDNESDAY MORNING, JAN. 14. 1852.

Rufus King, Wm. H. Watson & John. S. Fillmore, PROPRIETORS.

UNDER THE NAME AND FIRM OF

RUFUS KING & CO.

OFFICIAL PAPER OF THE CITY.

FROM OUR NEW YORK CORRESPONDENT.

New York, Dec. 31.

The Old Year is going out in tears—soft tears and mild—the skies are cloudy, yet not gloomy, and Winter seems to have intermitted its rigors, which, to say the truth, for some 8 or 10 days were excessive. As cold weather prevailed for many days as I remember, and the ice merchants, happily, made the most of it by gathering into their garners the solid, brittle, shining blocks, 8 inches thick and clear as crystal. Now the mason work in this never-to-be-finished City, and of which an unusual quantity is in process, has been resumed and is going on as tho' it were May instead of December. *To-morrow*, if the sun shines, and indeed, whether it shines or not, our streets will be alive with holiday visitors, in observance of that excellent, cordial, old Dutch custom, which enjoins all people of the *masculine gender*, laying aside all other business and calling, to dedicate New Year's Day *to* visits to the ladies, and to renewing acquaintances and confirming friendships, or commencing them.

One cannot but feel at these epochs, stated epochs, in the flight of time, that it is good to pause and look back upon the Past, as well as forward into the Future. In this vein, for one born, like myself, in this great City, it is impossible not to contrast, with mingled pride and gratification and thankfulness withal, to that Great Being whose we are and from whom come all our blessings, its present *overflowing* prosperity with the feebler bygones of former days. In wealth, in population, in *growing* extent, in its schools and its churches, in its eleemosynary institutions, in its public spirit, *in* its generous sympathies, in its respect for law, its love of country and its fidelity to the Union, it may be claimed that no where exists its superior, hardly its equal. Our great Country too! Now as we are entering upon the second year of the second half of this Century, how largely it rises up before us, in its glorious proportions of Freedom and its irresistible attributes of Power—not the wanton, wicked power of an adventurous usurpation, hedged round with bayonets, trampling in the dust all human rights and effacing at a blow the fruits of sixty years of fearful struggling after Liberty—but the power of an enlightened people, self-governed and *resting* wholly upon the capacity of that people for self-*government*, without artificial aids, or exterior buttresses, but self-poised, self-sustained and self-sustaining—the *strongest* Power, beyond all peradventure, in the world, and yet without any show of Armies or Navies, at all comparable to those of governments crumbling at their base, or reeling to and fro as tho' the Earth beneath their thrones were heaving with Volcanic fires.

It is not unseemly, I trust, nor presumptuous, as we cast our eyes over the world and witness the convulsions, impending or in progress, to exult in our own settled security—as it certainly cannot be unprofitable to freshen in our hearts the conviction, that upon the good education, good morals and habitual respect for law of our People, reposes and can alone safely repose, both our security and our greatness. In the half century that has past we have grown from 13 to 32 States; from four and a half to twenty-four millions; *from*, at most, a third rate, to the very first rank of nations. Our responsibilities must keep pace with *our growth*, and *especially* that chiefest of responsibilities, to take care that we transmit to those *who shall come after us, the virtues, the energy*, the patriotism and the principles that have made us what we are—so that when, at the close of the next half century, to be witnessed by so few who now tread the scenes of life, the account shall again be taken, and it be asked what have the U. S. done since 1850, it may be answered by a nation still prosperous, still strong, still just and still united by that glorious bond which constitutes at once our safety, and our power—that Union formed by Washington and Hamilton and John Jay and Rufus King, and the other men of that heroic race, whose equals are only, from *time to time*, vouchsafed by Providence to Humanity, when great occasions call for the efforts *and sacrifices of great men*.

Kossuth is in Washington, where there seems a monstrous deal of petty manoeuvring about the proper mode of receiving him. If he were other than he is—an earnest, sincere, unselfish man, intent upon his country's wrongs, and wholly regardless of mere personal display, or complaint, he might be amused and even gratified by the sense almost of alarm produced by his approach to the Capitol. But he has one only object, one only thought, how to redeem his country, and he sees nothing outside of that. What will be the course which Congress may finally adopt, it were vain to conjecture, but assuredly the usurpation of Louis Napoleon but adds to the obligation on all free peoples, *to speak out in behalf of Freedom and in* condemnation of the schemes of blood-stained and bayonet-bolstered Despotism.

The Shipment of Gold.—The export of *Fifty Millions* of Gold, in one year, from this country, to pay for goods in Europe which might have been made at home, don't distress our Loco Foco contemporaries in the least. On the contrary, they think it all right. The Watertown *Register* explains the transaction in this easy manner:

> People look at these exportations of gold the same as coin, whereas it goes forward in bulk, like copper, iron or any of the other metals. It is merely an article of commerce, and we do not see what odds it makes, if we have debts to pay, whether we pay it in gold or other products of our country.

Well, if you don't see it yet, you *will* see it shortly, if we continue to send gold to Europe, and keep our "other products" at home. John Bull, of course, is entirely satisfied with the present arrangement and chuckles over the idea that for once he has got Brother Jonathan on the hip.

Milwaukee—The Liquor Licenses.

> The Milwaukee *Sentinel* is exceedingly indignant because the *Spectator* commented somewhat severely, yet justly, upon the action of the Common Council of its city in respect to refunding some $6,000 to liquor venders, being the amount paid in to the city *treasury* for licenses.—*Green Bay Spectator.*

It was precisely because the *Spectator* did *not* comment "justly" upon the action of our Common Council, that we took it to task. It assumed a state of facts which never existed, and upon these false premises founded its "severe" comments. The Common Council erred in their first vote on the question, but they have since repaired that error. The *Spectator*, which was so "severe" upon their first action, forgets to be so far "just" as to inform its readers of their "sober second thought."

> ☞ The Sentinel stigmatized Kossuth as a second Peter the Hermit. We called attention to this aspersion, and the editor replies in the slang vein with which all know that he is so personally conversant.—*Wisconsin.*

We usually adapt our language to the exigencies of the case and the understanding of the person addressed. In this particular instance the propriety of the selection is justified by the readiness with which the *Wisconsin* takes our meaning. It was reserved, by the way, for that erudite journal to discover a "stigma" and an "aspersion" in our speaking of Kossuth as a "second Peter the Hermit." We had supposed Peter the Hermit one of the *great* characters of history.—But what is History to the *Wisconsin?*

Manitowoc Harbor.—At an adjourned meeting of the citizens of Manitowoc, held Jan. 3d, a bill from the harbor committee was reported, authorizing the loan of a sum not exceeding $15,000, on the security of the village, for the construction of a harbor at the mouth of the Manitowoc river.

The bill was approved by the meeting and forwarded to Madison for the Legislative sanction.

THE LEGISLATURE.

The Legislature meets at Madison to-day. No doubt a quorum of both Houses will be present. but it is matter of considerable doubt whether the Assembly will effect an organization immediately. Should it do so to-day the Governor's Message will probably be sent in without delay. We hope to lay it before our readers as soon as it is communicated to the Legislature at Madison.

Rail Road Meeting at Waukesha.

The Annual Meeting of the stockholders of the Milwaukee and Mississippi R. R. Company was held at Waukesha yesterday. It was very numerously attended, and marked by a good deal of excitement. The old Board of Directors with their new President, Mr. Catlin, at their head, organized for business, opened the polls and declared the result announced under our Telegraphic head. The late President of the Company, Byron Kilbourn Esq., with his friends and supporters, held a separate meeting, opened another poll, and elected a different set of Directors. This done, some of each party started express for our City to get possession of the books. A brief contest ensued in the Office of the Company, which resulted in the books being handed over to the City Authorities for safe-keeping.

It is very much to be regretted that there should have been disagreement and difficulties among the friends of our Rail Road, but we hope that the storm, though violent just now, will soon blow over and that the great work will progress all the faster for this temporary hindrance.

Our Lake Shore R. R.

The start given to this project, by the opening of the books and the subscription of $250,000 in this city, a few days since, has electrified all of the Lake towns. The Chicago, Waukegan, Kenosha and other papers express great satisfaction at the movement and urge the people of their respective neighborhoods to put their shoulders to the wheel and give the enterprise a hearty lift.—The Chicago *Democrat* of Monday contains a notice for the opening of books of subscription to the Capital Stock of "the Chicago & Milwaukee R. R. Co.," in Chicago on the 12th of February and in Waukegan on the 10th do. The Waukegan *Gazette* of Saturday last has a like announcement. Both papers warmly commend the enterprize to the hearty support of their readers. The Chicago *Democrat* well says:—

> This is without doubt, *one of the most* promising Rail Road projects at present before the public.
>
> A Rail Road from Milwaukee to this city must command the trade of the eastern portion of the State, and in time be one of the best paying roads in the Union.
>
> A glance at the country, dotted with cities, towns, and villages, and abounding in all the resources of one of the best agricultural regions in the United States, will show that it cannot fail to command an immense freight and passenger traffic at all seasons of the year.
>
> The grades for the entire length of the road are easy, and the expense of its construction and equipment must be much lighter than the generality of roads. At all points it touches the waters of the Lake, by which materials of all kinds can be transported at a cheap rate, and thus a large amount for *carriage &c. saved.*
>
> A road is much needed from this city to Milwaukee, and we know of no route that affords greater facilities for building one, or supporting it when constructed and in operation.

The "New Deal."—The Washington County *Blade* adds its voice and vote to the "Progressive" movement in favor of another selection of Delegates to the Loco Foco National Convention. It says that the same dissatisfaction which has been noticed in the First and Second Congressional Districts, prevails in the Third also, and closes thus:

> We see no objection to the proposition. If the people are not satisfied, they can choose others; if they are, they can confirm the action of the State Convention, which will then be the more authoritative. The electors for the first and second districts have resigned, for the purpose of referring the matter back where it properly belongs.—Would it not be well for the other elector, and the *delegates in all three to do likewise*, that dissatisfaction may be allayed.

International Magazine.—The January number, the *first of the fifth* Volume, of this sterling periodical reached us by mail yesterday. It is well printed and neatly illustrated and abounds in every variety of useful and entertaining literature. In the coming year the publishers announce that Nathaniel Hawthorne will contribute a series of his clever stories, and other well-known authors will write regularly for the International. It would be difficult to find anywhere a cheaper or a better periodical than the International Magazine. Published by Stringer & Townsend, 22 Broadway New York, at $3,00 per annum, or 25 cents per copy.

Consul Owen.—This gentleman has addressed a long letter to the *National Intelligencer*, in which he says it is not true that he refused to take measures to prevent the execution of the American prisoners. It is not true that he knew of their capture before their execution, and not true that he refused to see them.

Mr. Owen then gives the correspondence that took place between him and the authorities of Cu*ba, to prove his assertions.* And he concludes by saying that in the whole affair, he did everything *he should have done but take care of himself.*

Kossuth Coming West.—It would appear from the following paragraph, taken from the Cincinnati papers, that the illustrious *Hungarian* is to visit the West. He will meet with an enthusiastic reception in Cincinnati:

> Mr. Coleman, of the Burnet House, as we learn, received a telegraphic dispatch on Saturday evening last, from Washington City, stating that Mr. Kossuth *would leave on the* 8th inst., for Cincinnati. He will probably be here on Monday or Tuesday, Jan. 12 or 13th.

Clerks in the Executive Departments at Madison.—The Democrat says Dr. John W. Hunt is retained as Deputy in the State Department; Daniel W. Seaver, in the Treasury, and Mr. Meyers in the Educational. Harlow S. Orton is Private Secretary, in place of Geo. P. Delaplaine, and Mr. Dudley, Librarian, in place of Mr. Anake, James Helpin, the indefatigable Superintendent of Public Property, remains in that place.

Fire at Racine.—A large Cooper Shop, owned by Reuben Norton, with its contents and a great number of staves, was destroyed by fire at Racine on Monday night. The severe cold disabled the Engines. Rumor magnified this fire amazingly, representing that it burnt five hours and destroyed nearly half of Racine! We are happy to say that no such serious calamity has *befallen our fair sister City.*

Immigration at the Port of New-York.—The New York *Times* gives the table of immigration at that port for the year 1851 of which the following is a summary:

From Ireland,	163,256
From England,	28,563
From Germany,	69,883
From other parts.	20,603
Total,	282,300

Democratic National Convention.—The Democratic General Committee, recently in session at Washington, recommend Baltimore as the place and the first Tuesday of June as the time, for the meeting of the National Democratic Convention to nominate candidates for President and Vice President.

☞ The correspondent of the Cleveland Herald says of Senator Walker's Kossuth speech—

> But Walker, more bold and fearless than his competitors, manfully entered the new political arena, "stripped for the fight," and challenged the Despots of the whole world, to mortal combat.
>
> Go it, Ike; we'll hold your coat.—*Madison Democrat.*

New Post Offices.—The Post Master General has established a new Post Office at Fountain Prairie, Columbia County, Smith Horton P. M., and at Shoneiau, in the same county, W. S. Wherry P. M.

AGRICULTURAL MEETING.

Pursuant to a call of the officers of the Agricultural Societies of the Counties of Milwaukee and Waukesha, the members of said societies met at the Court House in the village of Waukesha, on Friday the 9th of Janury, 1852.

The meeting was called to order by T. C. Douseman: When on motion T. C. Douseman was called to the Chair and G. C. Cone was appointed Secretary.

On motion of G. C. Pratt, R. P. Messenger, O. C. Rathburn, and Martin Field were appointed a committee to report a Constitution for an Agricultural Society, consisting of inhabitants from the Counties of Milwaukee and Waukesha.

The committee by their Chairman reported a Constitution which was adopted, and reads as as follows:

Constitution of the Milwaukee and Waukesha County Agricultural Society.

The name of this society shall be "The Milwaukee and Waukesha County Agricultural Society."

Section 1. This Society shall consist of such persons as shall subscribe to this Constitution and pay on subscribing one dollar, and one dollar annually thereafter: And the payment of ten dollars shall constitute a member for life, and shall exempt such members from annual contributions: And such honorary members as the Society shall elect at its annual meetings.

Sec. 2. The officers of this Society shall consist of a President, and as many Vice Presidents as there are organized towns and wards within the Counties, one to be located in each of the said towns and wards, a Secretary, a Treasurer, and an Executive Committee, to consist of the President, the Secretary, the Treasurer, and four additional members, a majority of whom shall constitute a quorum for the transaction of business.

Sec. 3. The President shall preside at all meetings of the Society, unless necessarily prevented, in which case the Vice Presidents shall appoint one of their number for that purpose. The Vice Presidents are charged with the general interests of the Society in the towns and wards in which they may respectively reside, to procure subscribers and donations, *immediately remitting* any funds which they may receive, to the Treasurer; and generally to act as agents of the Society, and to constitute a medium of communication between the different members of the same. The Secretary shall, when necessary for the interests, carry on a correspondence with other Societies, with individuals, and with the Vice Presidents, keep a true record of all letters written by him and a regular file of all communications received by him as Secretary, and lay the same before the society at their annual meeting. The Treasurer shall receive and keep the funds of the society, and disburse them on the order of the President, countersigned by the Secretary; and shall make a report of the receipts and expenditures at the annual meeting. The Executive Committee shall take charge of, and distribute or preserve, (as they may think proper,) all seeds, plants, books, models, &c., which may be transmitted to the society; and shall also have charge of all communications, reports, and other documents, designed or calculated for publication, and so far as they may deem expedient, shall correct, arrange and publish the same in such manner as they shall think best calculated to promote the objects of the Society. A majority of the Executive Committee shall have power to call extra meetings of the society, also to call meetings of their own body whenever the interests of the society require—shall make out the list of premiums which may be offered, and transact all business which may be committed to them by the bye-laws or resolutions of the society.

Sec. 4. There shall be an annual meeting of the society on the 2nd Tuesday of January in each year, at such place as the Executive Committee shall appoint—at which meetings all officers shall be elected by ballot, (except the Vice Presidents; they shall be appointed by the Executive Committee,) and a plurality of votes shall elect.

Sec. 5. The society shall hold an annual cattle show and fair at such time and place as shall be designated by the Executive Committee, at which it shall be the duty of all the officers of the society to be present.

Sec. 6. All persons who have become members of either of the County Societies shall be members of this Society, but the members of the Milwaukee Society shall pay each to the Treasurer the sum of *fifty cents, to make their* entrance fee one dollar.

Sec. 7. This Constitution may be amended by a vote of two thirds of the members attending any annual meeting.

On motion of G. C. Pratt, the meeting now proceeded to the election of the officers of the society for the ensuing year; Messrs. Pratt & Halstead acting as tellers.

After the ballotings, it was found that the society had made choice of E. W. Edgerton of Summit, Waukesha Co., as President; who entered immediately upon the duties of his office. Also the society made choice of Cyrus Hawley, of Milwaukee, as their Secretary; and T. C. Douseman of Ottawa, Waukesha County, as Treasurer.

The society now balloted for the Executive Committee, which resulted in the choice of G. C. Pratt, of Waukesha, A. B. Mower of Wauwatosa, Milwaukee Co., Geo. Tiffany and R. N. Messenger, of Milwaukee.

On motion of G. C. Pratt, it was voted that the Executive Committee be instructed to invite the State Agricultural Society of the State of Wisconsin to hold their next annual fair at Waukesha.

On motion of R. N. Messenger, it was

Resolved, That the proceedings of this meeting be published in the Waukesha Democrat and Milwaukee papers.

On motion voted to adjourn.

E. W. EDGERTON, *Chairman.*
G. C. Cone, *Secretary.*

Congressional.

Washington, Jan. 7.

Senate.—The chair laid before the Senate yesterday the following message from the President, which was referred to the Committee of Finance:

To the Senate of the United States:

> I transmit to the Senate a report of the Secretary of State relative to the prisoners belonging to the expedition of Lopez who were taken prisoners in Cuba, and afterwards sent to Spain, and who have now been pardoned and released by her Catholic Majesty. The appropriation, the expediency of which is suggested in the Report, I cordially commend to the consideration of Congress with the single addition, that to be available it should be promptly made.
>
> (signed) M. FILLMORE.
> Jan. 5, 1851.
>
> *To the President of the United States:*
>
> The Secretary of State has the honor to acknowledge the receipt of a copy of the despatch of the 12th ult., addressed to this Department by Mr. Barringer, the Minister of the U. S. at Madrid, announcing the pardon and release by her Catholic Majesty of the Prisoners taken in Cuba *in the expedition of Lopez* and afterwards sent to Spain, together with copies of several accompanying papers. The Secretary of State suggests to the President the propriety of recommending to Congress the expediency of making an appropriation for the purpose of *defraying* the expenses which may have been or may be incurred in administering to the necessities of those persons while in Spain, and until they return to the U. States. Their condition is forlorn and deplorable, and such as calls for immediate relief.
>
> Respectfully submitted,
> (Signed) DANIEL WEBSTER.

Mr. Barringer's dispatch contains nothing but what has appeared in the papers.

Mr. Seward offered the following resolution which was laid over.

Resolved, That the committee on Pensions be instructed to inquire into the justice and propriety of awarding a pension to the widow of the late Brevet Brig. Gen. Belknap, who served during the late Mexican war with distinguished fidelity and ability and recently died while actively engaged in the public service. The Senate then adjourned.

The Senate organized this morning, and elected Henry Wilson (Free Soil Coalitionist) President, by 2 majority.

Our Policy is Honorable Peace.—The London *Times* says, that the interference of England with the affairs of the Continent, has cost that country during the present century alone, more than *twelve hundred millions of pounds sterling!* This is an important fact for consideration. This nation has grown rich by minding its own business. As long as it continues to do so, it is destined to advance in prosperity and greatness. Once involve it in wars with foreign nations, and like those countries, the substance of the people will be eaten up with taxes to support military and naval establishments. We desire freedom in every land, but the continuance of freedom in our own Country before all others.—*Galena Gaz.*

The Kickapoo Hunters.—Three of our hunters, who have been up in the Kickapoo country for the last two months or so, arrived in town, on Monday evening last. They brought in some 40 head of deer, varying in size from the largest buck to the smallest fawn. But their chief game was two black bear—the larger of which measuring over 8 feet in length and weighing some 450 lbs.—*Potosi Republican.*

Authentic intelligence received by the Cambria states that when Mr. Webster's note, respecting the Prometheus outrage, reached Mr. Lawrence, our Minister at London, he wrote a note to Lord Palmerston on Friday, and on the following Monday a Cabinet meeting was called—it is thought for the purpose of inquiring into the affair—from this meeting Lord Palmerston was absent. Mr. Lawrence, feeling anxious for an explanation, called at the office of the Foreign Secretary, and was informed that he was out of town. This fact, together with the resignation of Lord Palmerston accounts for no answer being received to Mr. Lawrence's note. Private accounts state that he is making great efforts to obtain a satisfactory explanation, and would have been able to accomplish his object but for the resignation of Lord Palmerston.

Shocks of an earthquake were distinctly felt at New Bedford, Providence and Norwich, at twenty minutes before 7 o'clock on Saturday morning.—The shock lasted from ten to twelve seconds at each place, resembling the noise of a heavy loaded wagon passing over frozen ground. Our New Governor.—The Madison *Democrat*, which cannot be suspected of undue partiality for a Whig Governor, thus speaks of our new Executive, Gov. Farwell:

> His first acts have indicated pretty clearly, that the whigs have not got a play-thing for Governor, nor the State a noodle. He has taken the responsibility of appointing an able lawyer and a wise counsellor as Private Secretary, in the place of one selected for him, by officious partisans; he has appointed an efficient man, of character and ability, to the office of Librarian, entirely at his own instance and upon his own responsibility. His other acts, thus far, have shown promptness and independence enough to ensure respect to the Executive department, and honor to the State. In all that pertains to the dignity and character of the office, the Governor will find as honest support from democrats as from any other in the state, while as a whig partisan he will find from the same source as honest and consistent opposition. We are not among those who have toadied to Mr. Farwell's luck, or courted his means of patronage; but as one of the people—a self-made man, unspoiled by flattery—he has our warmest sympathies and prayers for honorable success.

Naval.—One of the finest and fastest ships in the world—the United States sloop, Portsmouth—now lying at anchor in our harbor, presents a most remarkable instance of the necessity of a reorganization of the Navy. A Commander and First Lieutenant ordered to her have tendered their resignations, because they do not *want to go to sea.* Another Lieutenant, who has been for several years in receipt of full pay on shore duty, was also lately ordered to this beautiful craft.—He has, we understand, *been* condemned by survey, *as unfit for Sea duty.* We call public attention to these facts, and suggest that some member of Congress at the present session introduce an order to the effect that "all lazy and disabled officers shall have charge of the shore stations and fatten at public expense, while the *dangers of the service shall* be *participated in only* by men whose lives have been passed upon the ocean, notwithstanding their greater claim to public gratitude."—[Boston Atlas, Thursday.

A Whole Family Suffocated.—Yesterday afternoon a family named Brady, consisting of four persons—two brothers, Philip and James; Catherine, wife of Philip, and James his son—moved into the basement of a building in the rear of No. 174 Twenty-Fourth st. In the evening they built a fire of charcoal in an open furnace, we understand, closed the windows and doors and went to bed. This morning some of the neighbors called and knocked at the door but could get no answer. Fearing something was wrong, they called Capt. Whigham of the Eighteenth Ward Police, who broke open the door and immediately brought the bodies into the air. It was much too late, however; they were quite dead.—*N Y. Tribune.*

Hogs.—A compromise at last appears to have taken place between seller and purchaser, and to day we heard of a sale of 800 head at $4,50 and $4,62, the latter price for those weighing 200 lbs and over, the former for those under that weight. An offer has been made for 2000 at these prices, which it is more than likely will be accepted. The steamer Altona brought down to-day 250 head, and landed them at the northern ferry. The roads have become rough and frozen, and it may be, in consequence, the droves on the way will be delayed. If owners will accede to the above rates, the business of the season it is thought will reach to 50,000.

☞ IN CONSUMPTIVE SYMPTOMS, Procrastination is the thief of time," in an awful sense, as it shortens existence, and hurries the patient from time to eternity.

Thousands are dying whose lives might be saved by the timely use of Wistar's Balsam of Wild Cherry. A few weeks, a few days, may make a fatal difference in the progress of consumptive symptoms.

The chances of success increase greatly with the earliness of treatment. Although in cases, seemingly desperate, Wistar's Balsam has performed cures that are seemingly miraculous, still it is advisable to take the Balsam on the appearance of the first symptoms.

CONSUMPTION, of all diseases, is the one that should receive early treatment. Every hour of delay may make the case more difficult. In the war between Disease and Nature, the sooner we assist Nature, the more certainly will she win the victory. If we wait until Disease has broken the constitution, our aid may come too late for service.

REMARKABLE.

AT Mrs, ——Soiree on Tuesday evening, there was a young gentleman whose brilliant appearance attracted general attention. His large, dark, expressive eyes were only equalled in beauty by the thick, glorious luxuriance of his hair, which was dark and glossy as the wing of a raven. The eloquence of his aspect in this respect was the more astonishing to parties present, since it was well known that *previous to his trip to——, some months before, and from* which he had just returned, he was nearly, if not quite bald, in consequence of a long and severe illness, which resulted in nearly plunging him into his grave. Curiosity became at length so strong and universal, that the gentleman was prevailed upon by the fair hostess to explain the mystery, which he did after a few introductory remarks, in the following words:

"Before Leaving ——," said he, "I provided myself with a few bottles of Johnson's HAIR RESTORATIVE, in hope that the virtues attributed to it might touch my case, and thus preserve me from perpetual baldness. Nor was I disappointed. Ere I had used it a week, my decaying hair ceased falling out; within two months a new crop began to show itself; and in six weeks I could boast of as fine a head of hair as any gentleman of my acquaintance."

"But where can this wonderful article be obtained?" cried his auditors, in a breath.

"Of Johnson, the proprietor, 151 East Water Street, and of all respectable druggists. The price is very low—only fifty cents a bottle. Give it a trial, and you will find with me, that while the Hair Restorative is extant, no one need be bald." Jan9

Your bitters acted as a charm with my friends, Hon. A. C. Dodge, M. L. Martin, H. D. Foster and others, as they did with myself,

Sec. 11. In case any fire shall break out during the hours of the night watch, it shall be the duty of such captain to hasten to the same, and assist in removing the goods, furniture or other property, the removal of which may become necessary by such fire, and guard and protect the same from thieves or any person who shall improperly attempt to remove or unnecessarily injure the same, and for the more efficient discharge of such duties, he shall have power to call upon and command any necessary number of by-standers to assist him therein, either by helping to remove such goods, furniture or other property, or by standing as guards or watchmen over such goods, furniture or other property, and prevent the unnecessary or improper removal of the same; and any person so called upon by said captain, who shall refuse or neglect to render such assistance, or who shall not faithfully and efficiently render such assistance, may be immediately arrested, and upon due examination and proof of such refusal or neglect, shall be fined ten dollars and costs; and on neglect or refusal of payment of said fine shall be imprisoned in the county jail six days.

Sec. 12. It shall be the duty of such captain of the police to make a report to the mayor and common council at the end of each month, of the number of arrests that have been made, and of the nature and number of the different offences for which such arrests have been made. He shall also report the names, and the names of the watchmen, and the number of their beat and ward, who have made the several arrests; and for the purposes herein mentioned he shall compel each watchman to make full returns to him at or before the close of each month, of the number of arrests that he has made, and of the nature of the offences for which such arrests have been made.

Sec. 13. Each person appointed as such watchman, or captain of police, as aforesaid, shall, before entering upon the duties of his office, take and subscribe the following oath or affidavit, in substance, to be administered by the clerk of the common council.

CITY AND COUNTY OF MILWAUKEE, } ss.

And such officer shall, moreover, give a bond in the sum of two hundred dollars, with one or more sufficient sureties, who shall be approved by the common council; which bond shall be conditioned for the faithful and vigilant discharge of his duties as such police officer, and for a faithful obedience to the ordinances of said city, and to pay over to the proper officer any money he may receive during the term for which he may hold such office; which bond shall be filed in the office of the clerk of the common council.

Sec. 14. For any violation of the provisions of this ordinance, the fine and costs imposed shall be immediately paid or secured, before the prisoner shall be released from custody; and in default of such payment being made in any such case, or of the amount being secured by sufficient sureties, to be paid within twenty days from the time of rendition of such judgment, the person liable to pay such penalties, shall be immediately committed to jail, agreeable to the provisions of this ordinance. Every member of police in said city, is hereby authorized and empowered to command the assistance of any person or bystander, to aid in the execution of the provisions of this ordinance, or of any other ordinance, which the common council may from time to time pass or enact, for the better preservation of peace, and protection of life and property; and any person refusing to aid such police officer, when required so to do, shall be fined twenty dollars and costs, and in default of payment, shall be imprisoned in the county jail ten days. And any person who shall be guilty of resisting the lawful acts of any police officer, or in any manner hindering such officer in the discharge of any of his duties as such police officer, shall be liable to such penalties and punishment as such persons would be liable to, for resisting or hindering any other public officer in the discharge of his official duty.

Sec. 17. PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S GREAT DYSPEPSIA CURER!

THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE!

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful.

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER,

DR. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ OBSERVE THIS.—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copywright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicine.

WISTAR'S BALSAM OF WILD CHERRY,

THE BEST REMEDY EVER KNOWN

To MAN, for Coughs, Asthma, Colds, Croup, Bronchitis, Influenza, Bleeding of the Lungs, Difficulty of Breathing, Liver Affections, Pain or Weakness of the Breast or Side, First Stages of Consumption, &c.

In short, this Balsam is peculiarly adapted to every disease of the Lungs and Liver, which is produced in our ever-varying climate.

WILD CHERRY has long been known to possess important medicinal properties. This fact is familiar to every matron in our land, and physicians often prescribe it in different forms for a variety of complaints. Tar, also, has been equally noted for its virtues; and some physicians, whose names are familiar to the whole country, have gone so far as to declare that even CONSUMPTION could be cured by that alone. In other hands, again, it was nearly valueless—owing, no doubt, to their ignorance in preparing and administering it—a difficulty now entirely obviated by patient experiment and long experience.

The extraordinary medicinal powers of these two substances are now, for the first time, combined and embodied in DR. WISTAR'S BALSAM OF WILD CHERRY. By a nice chemical process, everything deleterious or useless is rejected, so that what remains is the most extraordinary and truly efficacious remedy for all kinds of pulmonary and liver diseases ever known to man. To convince all unbelievers that our theory is really true, we refer to a few cases of cures performed by this wonderful medicine:

PLEASANT RIDGE, Ham'n Co., O., }
September 27, 1850. }

J. D. Park—Dear Sir:—I take the liberty of advising you of the benefit I have derived from the use of Dr. Wistar's Balsam of Wild Cherry. I was prostrated by that terrible scourge, Consumption, in May last. The attack was truly horrifying to me, for five of our family, (brothers and sisters,) had died of Consumption. I was afflicted with nearly all the worst features of the disease. I had a distressed cough, and expectorated a great deal of blood, hectic fever, severe pains in the side and chest, cold chills, alternating with flushes of heat and copious night sweats.

I was under the care of a skillful physician, from the time I was taken sick until about six weeks since, being then about helpless, and my friends considered my case hopeless, or at least beyond our Physician's skill, and advised the use of Wistar's Balsam of Wild Cherry. Without my knowledge, my father procured it, and commenced administering it to me, and from the first day I commenced taking it, my health improved, and in two weeks from the time I commenced using it, I was able to be out and oversee my business, and labor, which I still continue to do. I have taken four bottles of the medicine, and now consider myself perfectly well. JEREMIAH ISCRIGG.

Another astonishing Cure!

E. Kalb, a highly respectable merchant of Rushville, Fairfield county, Ohio, sent us the following voluntary tribute to

"DR. WISTAR'S BALSAM OF WILD CHERRY."

Rushville, Fairfield Co, O, April 6, 1851.

Mr. J. D. Park—Dear Sir:—I wish to state to you that my daughter, Amanda, aged sixteen years, had, about a year since, a very severe attack of measles, which reduced her very much, and left her with a racking cough. I employed all of the physicians, within our reach for the purpose of removing her cough, but without success. She appeared to be sinking into a decline, with every symptom of consumption.

I then tried Dr. "Rogers' Liverwort and Tar." But this aggravated her cough, and gave her symptoms of a still more malignant character. I was now most seriously alarmed, and it was with trembling fear that I from day to day, saw the progress of that insatiable disease, consumption. I really despaired of my daughter's recovery. But I providentially saw the certificate of Jonathan Coulson, whose daughter, "Sarah Jane," was cured of consumption by "Wistar's Balsam of Wild Cherry;" this created a faint hope that it might help my daughter, and I immediately commenced using it, and it almost instantly gave relief; her health was improved from the first bottle, and by the use of two bottles of "Wistar's Balsam of Wild Cherry," she was restored to perfect health, and she is not at all predisposed to a cough.

I will say to all that are afflicted with any disease tending to consumption, *do not despair,* for Dr. Wistar's Balsam of Wild Cherry will cure you, if you will but try it.
E. KALB.

The genuine Wistar's Balsam of Wild Cherry has a fac simile of the signature of Henry Wistar, M. D. Philadelphia, and "Sanford & Park" on a finely executed steel engraved wrapper. No other can be genuine.

TAPSCOTT & CO'S
General Emigration and Foreign Exchange
AGENCY.

NEW-YORK:	LIVERPOOL:
W. & J. T. Tapscott & Co.,	W. Tapscott & Co.,
86 SOUTH STREET.	ST. GEORGE'S BUILDINGS

ARRANGEMENTS FOR 1851.

AS the season for emigration approaches, we beg to acquaint our friends and the public with our Arrangements for the year 1851, and would inform them, that with an increase of business—for which we are grateful—we are placed in possession of greater facilities for conducting the Emigration and Foreign Exchange Business than any other House in the World, and for which—in a great measure—we have to thank a discerning public for their continued patronage.

Since the commencement of last year a large number of magnificent ships have been added to the various popular lines for which we are the Agents, and several others are now in course of construction, all of which will be fitted up for passengers in the most superior manner, and commanded by men of long experience.

By the following List of Packets, and their dates of sailing—being six regular packets a month to and from Liverpool—four, to and from London—and two, to and from Glasgow—persons sending for their friends, or those proceeding to the "Old Country," will perceive it much to their advantage to make arrangements at our office; and as heretofore, our business in *Liverpool* will be under the personal superintendence of our Mr. W. TAPSCOTT—whose well known care and attention to passengers embarking by our line has won for him his present high reputation among the emigrating public.

LIVERPOOL PACKETS.

During the past year our Liverpool House have dispatched, in addition to the above extensive list of packets, the following well known ships, and in order to meet the wants of the emigrating public, they will continue to select such other first class vessels as may be required during the year 1851—viz:

Persons residing in the United States or Canada, who wish to send for their friends in any part of England, Ireland, Scotland, or Wales, can make necessary arrangements on application to the subscribers, and have them brought out by any of the above favorite lines of packets, or by first class merchant ships, on favorable terms, either by way of Liverpool, London, or Glasgow, and their frequency of sailing precludes the possibility of delay. Passage can also be secured from *Liverpool* to New Orleans, Baltimore, Boston, Charleston, and Savannah, *direct*.

W. Tapscott & Co., Liverpool, and on Messrs. James Bult, Son, & Co., Bankers, London, payable throughout England, Scotland, and Wales.

TO EMIGRANTS FOR THE FAR WEST.

Having the most extended arrangements for conveying passengers from New York to the Far West, of any house in the Trade, we are enabled to offer them any mode of conveyance, whether Railroad, Canal, or Steamboat, at prices as low as are usually paid for the worst possible conveyance, and with a certainty of their not being subjected to any delay or imposition on the route. Pamphlets with full descriptions of all the routes, with rates of fare for any place on the American continent—including California—can be had gratis. THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
Double Oven Cooking Stove,

(*Which received the First Premium at the State Fair, lately held at Janesville,*)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

Milwaukee, July 1 1851.

Troy Fire Insurance Company
TROY, WALWORTH COUNTY, WIS.

CAPITAL $100,000.

The Directors feel grateful to the public for having thus early manifested their approval of and confidence in this Company. After having been in operation ten months, we are able to report as follows:

Whole number of Policies issued,	960
Whole amount of Property insured,	$625,051 00
Whole amount of Cash premium,	5214 37
Whole amount of losses allowed and paid,	371 27
Balance of Cash Premium on hand,	4843 10

IT is gratifying to the Directors to state to the members of this Company, that the business has more than met their expectations, and is rapidly increasing. This unparalleled success in the commencement, and increase of business, show that our plan and management meets with the approval of the public.

The Charter and Bye-Laws are free from objections, and provide that the risks shall be divided into two distinct departments, and the premium notes in one shall not be liable for losses in the other. The only risks taken in the Farmer's Department are on farm property, detached dwellings, country churches, school houses, tailors' shoemakers', and saddlers' shops. No hazardous risks will be taken in either department, nor more than $2000 in one risk, or in a circle of eight rods.

The company possess both the advantages of the Stock and Mutual plan. Any person insuring may pay once and one-half the regular cash premium in full, without a premium note. Stoves may be added or changed, out-buildings erected, if fifty feet from dwelling, and such additions and repairs made as do not increase the hazard, without notifying the company. The Company will be responsible for the correctness of surveys taken by their Agents. Insurance may take effect on the day the application is made. The Company pays, in case fire, the full amount of damage not exceeding the amount insured, and all matters of difference may be settled by arbitration in the county where the loss occurs.

The rates charged by this company, though low, are based upon the actual results of insuring for the past twenty years, and are found to be sufficient, with prudent management, to pay all losses and expenses without ever resorting to the premium notes; thus the rates on exposed dwellings and farm property, are a premium not of one per cent, and a cash premium of fifty cents on each $100 for five years.

In publishing our safe, cheap, and popular plan of Insurance, we deem it a duty to ourselves and the public to state a few existing facts with the Washington and Montgomery:—

The Washington County Mutual commenced in 1836, by collecting thirty cents on $100; in 1848 they first discovered that this was insufficient to pay losses, and raised to 33 cents, and now are collecting 50 cents on each $100; the result of which is, by their report, Jan. 1, 1850, $9000 in the treasury, and 68 million at risk, on which they will probably lose two hundred thousand, making their actual debt 191 thousand.

The Montgomery County Mutual is another example of bad management. They have been in operation a little longer than the Washington, and their report shows what the Washington is fast coming to. They reported to the Comptroller, Jan 1, 1850, that their losses and cash expenses had exceeded their cash receipts twenty-nine thousand dollars, and fifteen thousand dollars claims unsettled, making debts and claims forty-four thousand dollars, and some thirty millions at risk, on which they will probably lose ninety thousand dollars more, making their actual debt one hundred and thirty-four thousand dollars.

The cash premiums now collected by these two companies on what they insure in future will only pay losses on the same, consequently those insuring with them now not only pay for their insurance, but assume a portion of these enormous debts, which must be raised by tax. These companies are unpopular in New York, and are compelled to wander in the Valley of the Mississippi where they are not so well known for business. Arch Bishop and Lester Wilcox may publish, as heretofore, their firm belief that no tax will ever be necessary, but the figures are the things to judge from.

Since the above reports, the Montgomery have levied a tax on their premium notes.

Now, we would ask the public candidly, which of these three companies it is to their interest to insure in; the Washington, and assume a debt of $191,000, the Montgomery, and assume a debt of $134,000, or of the Troy, with an increasing cash fund sufficient to pay all losses and expenses without ever resorting to a tax?

STATE FAIR.

CRANE'S PATENT SOAP took the FIRST PREMIUM at the STATE FAIR at Janesville; also at the State Fair of the State of New York, and at the Great Fair of the AMERICAN INSTITUTE. OF COURSE IT DID, because it is the BEST SOAP IN USE. If any are still skeptical, let them read the following—the names to which might be indefinitely extended—and then try it for themselves, and if it don't succeed, they don't follow the directions:—

"We have used CRANE'S PATENT SOAP in our families for the past eight months, and pronounce it FULLY EQUAL to its recommendations. We do not discover that it injures clothing in the least. It is the cheapest soap in use. We should not willingly do without it.

PATENT MEDICINES,

Dr. Trasks Magnetic Ointment,

CAN now be obtained in this city of S. JOHNSON, Jr., and H. Bosworth & Sons, and of one or more Druggists or Merchants in most of the cities or villages of the West. The great and increasing popularity of this remedy is mainly attributable to its controlling power over acute inflammation and nervous irritation. From the best of evidence in our possession, from Physicians, of the best standing, who have prescribed it, and from others who have been healed by it, we are satisfied that it will cure in some cases where no other known remedy will do it. This it has appeared to do in numerous cases of Chronic Sore Eyes and partial blindness, where the most eminent medical treatment had failed! For inflammatory Rheumatism Burns, Freezes, Ulcerated sores, Scald head, or for relief from a sudden stoppage of the pores of the skin by colds or fevers, a thorough trial will establish its claims to the confidence of the public. Our agents are supplied with circulars containing interesting details of its happy effects in many extreme cases.

☞ The attention of Physicians is respectfully called to a rigid scrutiny of the merits of this article.

No matter what the cause of pain be—if it arrises from nervous prostration, muscular debility, disarrangement of the functions of the liver or secretions of the skin, whether it be rheumatism, neuralgia, sick or nervous headache, nervous irritability, spasmodic affections, cramps, diarrhœa, bowel complaints, chills and fever, whether it originates from internal derangements or external injuries—Radway's Ready Relief, taken internally and applied externally, will speedily and effectually stop the pain and cure its cause.

HOOFLAND'S CELEBRATED GERMAN

BITTERS,

Prepared by Doct. C. M. Jackson,
AT THE GERMAN MEDICINE STORE,
120 Arch-st., Philadelphia.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.

READ AND BE CONVINCED.

[From the Boston Bee.]

The Editor said, Dec. 3d: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

SCOTT'S WEEKLY.

One of the best literary papers published, said, August 25: "DR. HOOFLAND'S GERMAN BITTERS, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

The Daily Sun says:—"It is one of the best medicines of the age for Jaundice and Liver Complaint."

Neal's Gazette says:—"Dr. Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser."

The Evening Bulletin says:—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."

The Daily News, July 24, says:—"A Medicine"—We speak knowingly of Dr. Hofland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the biliary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and to all invalids we should recommend it as worthy of their confidence."

The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.

LOOK WELL TO THE MARKS OF THE GENUINE.

They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

GREAT DISCOVERY.

JOHNSON'S CHEMICAL
HAIR INVIGORATOR,

To Prevent Baldness, and to Restore the Hair that has fallen off or become thin, and to cure effectually

SCURF OR DANDRUFF.

Prepared only by S. JOHNSON, 151 E. Water-st. FOR THE TOILET.

THE INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff, and other cutaneous diseases, disposes the hair to curl, and keeps it so; will positively change the harshest hair into the most soft, healthy, glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the lastest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. Nov 24 2m

Ketchum & Comstock,
HATTERS,
202 Main Street, Buffalo.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur,"

from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $1.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.
